Class Meeting
Selected Tuesdays
6:10 -8:00pm
Tompkins 309

Prerequisites
Prior completion of all MPA or MPP core courses, as well as completion of all degree requirements by the end of the current fall semester.

Course Description
Congratulations on reaching the final semester of the MPA or MPP program at GW’s Trachtenberg School. This capstone course is intended to be a highly integrative undertaking that serves in the place of an end-of-program comprehensive exam. The MPA and programs begin fairly broadly with required courses and then narrows to a more specialized field of concentration. Now, at the conclusion of the program, the capstone project asks students to integrate and synthesize many components of the curriculum by undertaking a major pro bono project of value to an external client.

Eligibility
The Fall Capstone course is for MPA and MPP students who are on track to graduate in December 2019. If you are uncertain of your eligibility, contact Prof. Augustine right away.

Student Learning Objectives
At the end of this course, you will be able to:

- Scope research to meet client needs and resolve analytic challenges in the face of ambiguity and competing values;
- Identify, design, and apply appropriate research methods to conduct a rigorous research project that is responsive to client needs;
- Efficiently-manage an intense, demanding, and collaborative research process;
- Integrate and apply knowledge and analytic skills gained in MPA courses;
- Communicate complex research findings effectively to both academic and policymaker audiences, and the general public;
- Provide new information, analysis, and insight to help inform the policymaking process (defined very broadly).

Course Workload
The university has adopted a policy on contact time and independent work time required for each credit-hour earned. The policy requires us to advise you how the time will be allocated for this course. This is an intensive course that requires student teams to work efficiently and effectively to complete an ambitious policy analysis project in a semester’s time. You should
expect to spend an average of one hour/week either in class sessions or meeting with the course instructors, in addition to an average of 9-10 hours of additional individual or team work each week. You may need to commit more time to this class at different phases of your project.

Class Standards, Structure and Schedule

Civility in the classroom: Higher education works best when it becomes a vigorous and lively marketplace of ideas in which all points of view are heard. Free expression in the classroom is an integral part of this process. At the same time, higher education works best when all of us approach the enterprise with empathy and respect for others, irrespective of their ideology, political views, or identity. We value civility because that is the kind of community we want, and we care for it because civility permits intellectual exploration and growth.

Respect for Diversity: It is our intent that students from all backgrounds and perspectives be well-served by this course, that students’ learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength, and benefit. We strive to create an inclusive classroom and present materials and activities that are respectful of diversity including gender, sexuality, disability, age, socioeconomic status, ethnicity, race, culture, and political affiliation. Your suggestions are encouraged and appreciated.

Academic integrity: We support and use GW’s Code of Academic Integrity. All deliverables in this class must be your own work, either individually or as a team. Your deliverables must conform to GW’s Code as well as other GW Policies that are listed on the last page of this syllabus. You must designate material quoted from other sources as a quotation and reference appropriately or we will consider it to be plagiarized. You must provide sources for facts used in the report.

Class Sessions. Unlike a regular TSPPPA course, the Capstone class will not meet every week. Instead, it will consist of regular meetings with your instructor and three class sessions throughout the semester as follows:

- First session (August 27) to discuss problem definition
- Second session (September 10 - tentative) to discuss the principles of ethics and report on project progress
- Third session (TBD) to discuss good practice in presenting research findings, conclusions and recommendations
- Final presentations to TSPPPA (week of December 9) in which groups present their final projects to the TSPPPA community, including faculty, fellow students, alums. Your group presentation will be scheduled for a specific slot later in the semester.

Role of Instructor. The primary work for the course will be the design and completion of your client-based project. The instructor will guide you in this process adopting a role that blends that of a supervisor in a work setting and a professor in an academic setting. At a minimum, you should keep your instructor updated on your group’s progress and consult with your instructor on any major decisions your group is facing. In addition, all major parts of the work project (i.e. sections of the report, research instruments, etc.) must be reviewed by the instructor before sharing it with your client. See the submission schedule below.

Online Instruction. Within Blackboard you will find a series of mini-lectures developed and recorded by Professor Rigby that provide fundamental instruction on the key steps of the
capstone project (i.e. identifying research questions, presenting research findings). These should be viewed by each member of your team as you prepare for key milestones and assignments. Students will be held responsible for incorporating the instruction in these videos within their capstone project. In addition, a number of resources/tools/guides are stored onto Blackboard into folders that are labeled by topics. Please refer to these as needed.

**Preparation for Capstone**

A required capstone orientation session on May 13 described steps that students must take prior to the start of the semester. The deadlines are below:

- Form a team and submit a team profile to your instructor by August 11
- Before the semester starts, identify potential clients and contact potential clients by email
- Write a team charter
- Review proposals, select a client and agree on the scope of work
- Submit a client update to your instructor by August 25

Notice that some of the deadlines require students individually and as teams to mobilize before the first day of class.

**Capstone Assignments and Due Dates**

All assignments must be submitted through Blackboard. In the exceptional cases when you are not able to make the deadline, you should warn the instructor as soon as possible and a minimum of 3 days in advance with a valid explanation and a reasonable alternative deadline. A detailed grading matrix is described at the end of the syllabus.

The schedule for class meetings, assignments, due dates, and grade composition are below. Note that course participation, preparation, and teamwork are an additional 10% of your grade.

<table>

</table>
| □ Before class on Tues, Aug 27 | Watch video lectures and read related materials, as needed (posted on Blackboard); *informs Research Design proposal, which is due Sun, Sept 22*  
• Policy Problems - Research Questions  
• research design |
| □ Tues, Aug 27 | Attend first class meeting at 6:10pm  
• Discussion of timeline  
• Forms of Evidence  
• Research methods  
Team progress reports - presentations |
| □ Sunday, Sept 8 | Submit (1) capstone mini-critique (individual); (2) draft Capstone Client Agreement; (3) team charter by 11:59pm |
| □ Before class on Sept 10 | Watch video lectures and read related materials, as needed (posted on Blackboard); *informs Initial Project Plan, which is due Sun, Sept 15*  
• Research ethics  
• Client-Consultant Relationship  
• Identifying Key/Guiding Literature |
| □ Tues, Sept 10 | Submit IRB certificate, due before class; CREDIT  
Attend second class meeting at 6:10pm  
• Working with clients  
• Ethics and IRB  
• Program reflection |
| □ Sun, Sept 15 | Submit Initial Project Plan by 11:59pm; GRADED  
• description of client and request;  
• signed Capstone Client Agreement;  
• annotated bibliography; *you will use this as the foundation for a literature review, which is due as part of first draft report section on October 13 at 11:59pm* |
| □ Sun, Sept 22 | Submit research design proposal by 11:59pm; GRADED |
| □ After you submit the research design proposal | Watch video lectures and read related materials, as needed (posted on Blackboard); *informs data collection plan (due Sun, Sept 29) and Draft report sections #1 (due Sun, Oct 13)*  
• Working with all kinds of data |
| □ Sun, Sept 29 | Submit data collection plan by 11:59pm; GRADED |
Ongoing assessment. A successful capstone hinges on your sustained engagement from start to finish. To be specific (10% of grade)

- Attendance at all of the capstone class sessions, team meetings, and both days of final presentations;
- Reliable, effective contributions to the team capstone project;
- Regular communication with your Instructor who should be engaged to review all written material and prepared presentations, as well as when making decisions regarding the scope and design of your project;
- Meeting all team and class deadlines.
- Thoughtful assessment of other group members through the two peer assessments.
First meeting, description of client and project – no later than August 27

After the first class, if not before, your team must have a first meeting with your instructor. Bring a one-page summary that includes the following information:

a. Your client
b. The research question/policy problem/issue your client wants you to analyze
c. What you know about the larger decision context (i.e. Why does your client want you to analyze this question? How will they likely use the information you provide?)
d. Any concerns your group has about the project

Capstone Mini-Critique; individual – due Sunday, Sept 8

In order to give you an idea of what other students have accomplished in the capstone, and to exercise your own critical and analytical faculties, each of you will choose one of several past capstone projects. Read the report as an administration professional who is about to embark on a similar project for another client. Prepare a short review of the study, Submit individually by Sunday, September 8 at 11:59pm. 5% of grade.

a. Summarize the issues and/or problems addressed in the report. Does the text establish why the issue is important and why the research is important? Can you discern how the research was intended to help the client to address the issue?

b. Describe the research questions, and explain how it relates to the client’s needs.

c. Summarize the research design and data collection methods used. Did the team offer a full justification of methodological choices, and explain how the study was conducted?

d. Assess the literature review. Did it synthesize findings of multiple studies? Was the research cited directly relevant? Were the sources appropriate and properly cited?

e. Summarize the findings in a way that demonstrates you understand them – or explain why the findings were unclear. How did the team arrive at those findings?

f. Did the policy implications proceed logically from the findings?

Draft Client Capstone Agreement and Team Charter – due by Sunday, September 8

Draft client capstone agreement: Using feedback received at the preliminary meeting, prepare a draft agreement. The term “Client Agreement” defines an important joint commitment. Fairly early in the discussions with a client, mention that the research begins only after the instructor has approved and they have signed a short client agreement.

For your reference, a model Client agreement is posted on Blackboard. The Client Agreement should be no more than two pages. As you will see, the Agreement should exclude entirely intra-GW steps (such as our class presentations) and include the following:

1. Research Objectives
2. Research design plan (basic layout of methodology, noted as the likely and expected approach)
3. Planned timeline, especially major milestones with the client
   - Devising measurement instruments (client approval)
   - Collecting field data/interviews (client assistance)
   - Any other “process” dates with client involvement where specific data must be furnished
   - Final presentation[s] to the client in December

4. Communications
   - Client liaison name and contact information
   - Capstone liaison name(s) and contact information
   - A polite statement of turnaround expectations

5. Deliverables (products to be presented to the client)
   - Team presentation[s] in December
   - Written report the first week in December
   - Other specified materials, if any

6. Research ethics (show sensitivity to the “spirit of IRB”)
   - Note protection of anonymity and confidentiality
   - Note that all team members will be certified as having completed and passed GW’s IRB training program for social and behavioral science research

7. Signatures and dates (for client representative and team)

After you have received approval for the first draft, you may send it to the client for signature. Expect to shuttle the draft agreement between your client and the instructor until you receive approval from the instructor. Not graded, but required before you finalize the agreement with the client. A signed agreement is due on September 15 (along with other deliverables).

**Team charter:** Develop a written agreement that articulates how you will operate as a team. The charter is for your use. The initial version should cover early decision-making. Revise later to memorialize your agreement on team responsibilities. The following topics are recommended, many others are possible. Submit by September 15.

a. Standards for attendance and attentiveness at team meetings.

b. Procedures for each meeting – who will set the agenda, who will lead the meeting, who will take notes, how any team member can signal that discussion is running off topic, who will monitor time.

c. Standard meeting agenda – recommended: project status and accomplishments since last convening; issues to be worked through; tasks and deadlines assigned to individuals [recorded in writing and recapplied at the end of the meeting]; time for next meeting.

d. General norms – respect, timeliness, quality of work, staying in contact, other.

e. Sharing of responsibilities – commitment to carrying equivalent shares of work, procedures for addressing non-compliance.

f. Team problem-solving – how to address when a member of the team is not meeting others’ expectations. All team members should state individually how they want other members of the team to approach them in case of conflict, concerns with quantity or quality of work, or other concerns with participation.

g. Leads and back-ups on specific project tasks and primary points of contact for the client and the instructor.

h. Plan for reviewing and blending each other’s work.
**IRB Ethics Training, certificate; individual – due before class, September 10**

Federal regulations require researchers to undergo ethics training and certification for research projects they undertake. Because the research projects for this course are considered “professional training” and are not ordinarily published, IRB ethics certification is not legally required for these projects. (If publication is pursued later, IRB approval will be required.)

High ethical standards are always an integral part of the Trachtenberg curriculum and these federal requirements certainly will be pertinent to careers as policy analysts. Understanding the principles and basics of these regulations is important.

To ensure familiarity with these regulations, the online CITI Training Program must be completed with a score of 75% or higher. To get started, please follow these steps:

- Register as a new user at [www.citiprogram.org](http://www.citiprogram.org)
- Institution: George Washington University (ignore others)
- Be sure to remember your user name and password.
- Then answer questions 2 through 4.
- For step 5, Q1, check “no”; Q2, “no” is fine.
- Next page only requires: GW email; Department=Trachtenberg School; and Role=Student researcher–graduate level
- Next page, check only “Human Subjects Research Training”
- Next page, click “no” to go to “CITI Basic Course”
- Next page, check only “Social and Behavioral Sciences”
- Next “no” for HIPS; “no” for GCP, click Finalize Registration
- Click “Social & Behavioral Research” under “George Washington University Courses” to start the nine modules.

Once you complete the CITI program, you will be provided a certification document. Create a pdf. Submit through Blackboard. **5% of grade.**

**Initial Project Plan – due September 15 at 11:59pm**

Using feedback received at the preliminary meeting and feedback received on the draft Capstone Client Agreement, develop and submit a project plan that includes three components (each described in more detail below):

1. Description of client and their request (what their research needs are);
2. Signed Capstone Client Agreement;
3. Annotated bibliography of 8-10 key readings/reports that will guide your project

Submit through Blackboard. **10% of grade.**

**Description of Client**

Provide a short (less than 1 page) description of your client, the client’s preliminary question[s], and your understanding of their decision context (i.e. Why do they want this question answered? What will they hope to do with the analysis you provide to them?)

**Client Agreement**

See discussion of “Draft Capstone Client Agreement,” above. You must have approval for the final Client Agreement text from your instructor **before** giving it to the client and obtaining their signature.
Annotated Bibliography
Prepare an annotated bibliography of 8-10 key readings that will guide your capstone project. These may be publications like books or journal articles, but may also be policy reports or summaries of governmental statistics. In your annotated bibliography, each source should be referenced (as you would cite it in your final report) and also include a short paragraph explaining its significance to your project. Do not simply copy the abstract.

The additional readings should be identified during your preliminary research on your topic. Look for articles, books, reports that are regularly cited on this topic (or an aspect of the topic). In addition, look for recent literature review articles or reports on your topic, as well as previous research that asked a similar question and may provide a guide to how your team will pursue the question at hand. Finally, make sure to review the publications of your client organization so you know what they have already done/said on the issue you are studying.

Research design proposal - due September 22 at 11:59pm
Based on your review of the literature, your understanding of the questions and decision context of your client, and your delimitation of the scope of work, develop a short memo addressed to your client that describes your research design proposal. Your memo should clearly articulate the overarching research question(s) that your project will tackle, explain why these are the right research questions for the projects, and transparently lay out how you will answer them. Prepare 2-3 pages that describe the following: (Note this will be the basis of the methodology section of your final report)

- Research question(s)
- Research Matrix: Break-down your main research questions into sub-questions and explain how you will collect, analyze, and quality assure data to answer each question. For example, the following type of matrix can be used

<table>
<thead>
<tr>
<th>Sub-research question</th>
<th>Method of Data collection</th>
<th>Source of Information</th>
<th>Method of data analysis</th>
<th>Quality assurance process</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>2.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>3.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Etc.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Detailed description of each part of your methodology: including sampling/selection strategy, description of the tools for data collection (e.g., survey questionnaires, interview questionnaires, source of quantitative data) and analysis (e.g., case-studies, cost-benefit, econometrics, etc.). If applicable, include initial descriptive statistics, etc.
- Specific timeline and division of labor for data collection and analysis tasks: including a description of how you will sequence each task and who will be responsible for executing, reviewing, analyzing, etc.
Submit this draft memo through Blackboard for feedback. After you incorporate this feedback (which may take a few rounds of revision), email the memo to your client. 10% of grade.

Data collection plan- due September 29 at 11:59pm

Before beginning ANY data collection, it is essential that you think carefully about how you will be collecting data, data dictionary, structuring focus groups, interview protocols, survey instruments, etc. Your instructor will work with your team to identify the research instruments that need to be developed and to help you structure them to be most effective. Submit by September 29 – or earlier if you wish to start data collection earlier. 10% of grade

Draft Report Sections (3) - Due October 13, November 3, and December 1

As soon as you get approval from your client on your project proposal, you can begin writing your final report. In many cases, you will still be determining this content, but write the sections that you can based on your work to date. Your instructor will review your work to date at three points during the semester. By the first due date (October 13), you should be able to turn in a draft report that includes the first three sections outlined below. By the second date, (November 3) you should have drafted your analysis of findings. By the final due date (December 8), you should submit a draft of your entire report (see format information below). Each 10% of grade.

Draft report section 1: submit by Sunday, October 13

1. Project rationale
   a. Statement of the problem (why it is important and to whom)
   b. Objectives of the research (general areas of interest & specific client)
   c. Clearly-defined research question

2. Background
   a. Summary of topic/policy/program under study (what do we already know?)
   b. Key information informing your project (why do we need to know what you propose to find out?)

3. Literature Review - Discussion of how prior research informed the research plan

4. Methodology
   a. Full justification of methodological choices, and explanation of how the study was conducted (including sampling and selection, how key concepts were operationalized; data collection; the response rates; coding system; text analysis technique, etc.)
   b. Detailed discussion of data sources (to include, how the data were collected or selected, source, timing, etc. applies to both primary and secondary data).

Draft report section 2: submit by Sunday, November 3

5. Presentation and analysis of findings
   a. Descriptive analysis of data and evidence (e.g., for quantitative data: descriptive statistics, distribution., etc.; for qualitative data: categories, emerging patterns)
   b. Results of the analysis (e.g., key relationships, explanations of emerging patterns, etc.)

Draft report section 3: submit by Sunday, December 1

6. Conclusions and recommendations
   a. Interpretation of findings and key policy implications
   b. Recommendations to clients and how the findings inform them (alignment)
   c. Research limitations
   d. Next steps (e.g., in terms of research or policy)
Final Report – due Sunday, December 8

Each team should prepare a final report suitable for their client. After review from your research Adviser, email both your draft and final report to both your research Advisers.

Standard Format: In most cases, the client will not specify a specific format. In those cases, use the format listed below. Otherwise, please speak with your Research Advisers about any alternative report structure.

The final capstone project report should be no more than 30 single-spaced pages, one-inch margins, and a serif font. Supplementary appendices (e.g., full text of questionnaires) do not count toward the page limit. All in-text citations (name, year, page if applicable) and the end references section should use standard APA or Chicago formats. Extra comments suitable as footnotes should be incorporated as footnotes and not endnotes. 10% of grade.

1. Front matter (about 5 pgs.)
   a. Title page
   b. Table of Contents
   c. Acknowledgements (thanks to client, key sources, others)
   d. Executive Summary (one page)
2. Body (20-25 pgs.)
   a. Project Rationale
      i. Statement of the problem (why important and to whom)
      ii. Objectives of the research (general areas of interest & specific client)
      iii. Clearly-defined research question
   b. Background
      i. Summary of topic/policy/program under study
      ii. Review of the literature that informs your project
      iii. Other key information that informs your project
   c. Methodology
      i. Discussion of how prior research informed the research plan
      ii. Full explanation of how the study was conducted (including how key concepts were operationalized; data collection; the response rates; and so forth)
   d. Analysis of Findings
      i. Description of data
      ii. Analysis of key relationships etc.
   e. Discussion/Conclusion/Recommendations
      i. Interpretation of data presented in previous section
      ii. Acknowledgements of limits of the study’s internal/external validity
3. Supplemental material (no pg. limit)
   a. References/Sources Cited
   b. Appendices
      i. Appendix A: name and contact information of the client liaison
      ii. Other appendices if needed (e.g., full text of any questionnaires).

TSPPPA Presentation

Scheduled for the week of December 8: At the end of the semester each team will make a formal oral presentation to the capstone class along with invited faculty and alumni. Prior to this presentation, you must do at least one practice presentation for your research advisor in
order to get feedback on your presentation style and content. In addition, please email the
final PowerPoint file (or link to Prezi) at least 24 hours before the presentation to both your
research Advisers.

All team members should participate in a 20-minute presentation of the project to be followed
by up to ten minutes of questions and discussion. Condensing an extensive project requires
carefully focusing on the most critical elements and findings, rather than attempting to
communicate every detail. Consider what are the most important points that you want the
audience to take away and emphasize those.

Presentations should include the following:

1. The identity of the client
2. Central research questions, plus their importance to the client
3. Background on the topic—highlighting why this study was needed
4. A brief explanation of the methodology—highlighting all that you did
5. A short summary of any challenges and how they were addressed
6. Findings and lessons learned
7. Recommendations to the client

These two basic criteria will again be used: (1) Style: aiming for an engrossing, lively, focused
talk, supplemented with uncluttered, attractive, informative visual aids. (2) Substance:
achieving a tightly edited, logically developed, effectively analyzed, and convincingly argued
report of the research. Most importantly, you want to leave the audience with an
understanding of how your project is: important, rigorous, and useful (to your client).

10% of grade.

Client Presentation and delivery of final report

After receiving feedback on your TSPPPA presentation and final report, budget time to then
revise them for the client. Most clients prefer an emphasis on the findings and recommendations with less time
devoted to the methodology (and even less to background on the policy issue/problem). Do
not be surprised if clients also ask for comments on the broader implications of your findings
far beyond the actual recommendations in your report. This presentation is not graded, but
required for completion of the project. Please note that your instructor may contact clients for
their critiques of teams’ performances in developing, conducting, and communicating the
research.
### Feedback on Final Report and Report Sections – Grading Matrix

<table>

Relevant Trachtenberg School Policies

**Syllabus:** This syllabus is your guide to the course. If any questions arise, please check the syllabus before contacting me. Sound educational practice requires flexibility and I may revise content during the semester. Please be generous in sharing notes with each other.

**Late or Missed Class:** Attendance is required. Any unexcused absence will result in a deduction from your grade. If you are late or absent from class, you must obtain all announcements, assignments, and handouts from Blackboard or classmates.

**Submission of Written Work Products:** It is your responsibility to make sure that you are able to access Blackboard to make your submissions on time. All work must be submitted by the assigned due date in order to receive full credit. Only extreme circumstances warrant exceptions. Unexcused late submissions will be marked down for each day that they are late.

**Academic Honesty:** All examinations and other graded work products are to be completed in conformance with the George Washington University Code of Academic Integrity. It states, in part: “Academic dishonesty is defined as cheating of any kind, including misrepresenting one’s own work, taking credit for the work of others without crediting them and without appropriate authorization, and the fabrication of information.” Note especially the definition of plagiarism: “intentionally representing the words, ideas, or sequence of ideas of another as one’s own in any academic exercise; failure to attribute any of the following: quotations, paraphrases, or borrowed information.” For the remainder of the code, and for more information about standards for conduct as well as your rights as a student, see [https://studentconduct.gwu.edu/](https://studentconduct.gwu.edu/).

**Incompletes:** You must request an incomplete no later than the last day of classes in the semester. You will fill out the CCAS contract for incompletes for both of us to sign and you will submit a copy to the School Director. Go to [http://bulletin.gwu.edu/university-regulations/university-regulations.pdf](http://bulletin.gwu.edu/university-regulations/university-regulations.pdf) for the full policy on incompletes.

**Changing Grades after Completion of Course:** No changes can be made in grades after the conclusion of the semester, other than in cases of clerical error.

**Accommodation for Students with Disabilities:** If you need extra time on exams or assignments due to a disability, let me know in the first week of class. Any student who may need an accommodation based on the potential impact of a disability should also contact the Disability Support Services office at 202-994-8250 in the Rome Hall, Suite 102, to establish eligibility and to coordinate reasonable accommodations. For additional information please refer to: [https://disabilitysupport.gwu.edu/](https://disabilitysupport.gwu.edu/).

**University Counseling Center:** The University Counseling Center (UCC), 202-994-5300, offers 24/7 assistance and referral to address students’ personal, social, career, and study skills problems. Services for students include: crisis and emergency mental health consultations; confidential assessment, counseling services (individual and small group), and referrals. [https://healthcenter.gwu.edu/counseling-and-psychological-services](https://healthcenter.gwu.edu/counseling-and-psychological-services).

**Security:** In the case of an emergency, if at all possible, the class should shelter in place. If the building that the class is in is affected, follow the evacuation procedures for the building. After evacuation, seek shelter at a predetermined rendezvous location.

**University Policy on Religious Holidays:** Respect for diversity is one of GW’s core values, extending to all aspects of our community. In keeping with this value, the university has adopted guidelines, recommended by the Faculty Senate, that ensure students and faculty may observe religious holidays without academic penalty:

- That students notify faculty during the first week of the semester of their intention to be absent from class on their day(s) of religious observance;
- That faculty continue to extend to these students the courtesy of absence without penalty on such occasions, including permission to make up examinations;
- That faculty who intend to observe a religious holiday arrange at the beginning of the semester to reschedule missed classes or to make other provisions for their course-related activities;
- That, prior to each semester, the administration circulate to faculty a schedule of religious holidays most frequently observed by GW students;
- That student members of other religious groups are also entitled to the same courtesies and accommodations; and
- That the administration conveys this policy to students by including it in the schedule of classes and other places deemed appropriate.
